Citizens' Housing and Planning Association (CHAPA) is a non-profit umbrella organization for affordable housing and community development activities in Massachusetts. Established in 1967, CHAPA is the only statewide group that represents all interests in the housing field, including non-profit and for-profit developers, municipal officials, local housing providers and advocates, lenders, property managers, architects, consultants, homeowners, tenants, local planners, foundation and government officials, and others. CHAPA pursues its goals through advocacy with local, state, and federal officials; research on affordable housing issues; education and training for organizations and individuals; programs to expand rental and homeownership opportunities; and coalition building among a broad array of interests in the housing and community development field. As the national health care act begins implementation this fall, housing and health care professionals are interested in finding new ways to work together to align and integrate health care and housing at the delivery system level for the benefit of our residents. Join us as we hear from a noted health care authority who will discuss how we can support this process.
