## Welcome Home Massachusetts Technical Assistance to Communities Mini Technical Assistance Grant Response Form

Please answer the following questions to the best of your ability – not knowing the answer does not mean the proposed project is not competitive. Please complete and submit this form electronically. Please do not exceed 3 pages in length. We may ask for further details as we finalize our funding decisions.

Examples of Welcome Home MA “mini grants” include: *your community controls a site and the housing partnership is promoting affordable housing development on the site; you need funds to develop materials to educate the community on how and why the housing would meet community goals, or your community is trying to pass a compact neighborhood zoning change and you need materials/talking points to host a community forum to explain the change to residents.*

*All responses are due by 5:00 pm on Wednesday February 13th. Completed forms should be submitted electronically to [cmarine@chapa.org](mailto:cmarine@chapa.org).*

**Name of Respondent (Organization, Municipality and/or Individual):**

**Address:**

**City or Town:**

**Contact Person (Name and Title or Role):**

**Phone Number:**

**Email Address:**

1. Describe the proposed effort. If there is a housing site, please identify site and explain the ownership status. If it is an advocacy effort, please explain the advocacy program including outreach.
2. Explain your role in the proposed effort. Who else is already or will be involved? Please give details of any collaborative effort.
3. How would the effort advance fair housing efforts, particularly in regards to housing opportunities for families, people with disabilities, veterans and/or diverse racial and ethnic groups?
4. What are the likely local and/or regional benefits as a result of this effort?
5. Will affordable housing units be directly produced as a result of this effort? If yes, how many, and over what time period?
6. What resources, including financial or in-kind, will the respondent commit to support the effort? What other resources will be sought with regard to this effort?
7. What type of technical and/or financial assistance will be most needed to undertake the effort?
8. What is the estimated timeframe, including start-up time?

**Thank you for your application!**
