Does the state have the housing stock needed to accommodate changing needs?

NO
Solving the Problem

- Legislative Fix to c. 40A
- Incentives and Rewards
- Coordinated Technical Assistance
- Data and Tracking

We cannot solve our problems with the same thinking we used when we created them.

- Albert Einstein
Challenge: Improving Zoning is VERY Difficult

Massachusetts is an outlier for requiring a supermajority vote to amend, modify, or adopt zoning ordinances or bylaws

- Massachusetts is one of only 10 states in the country that requires a supermajority to change local zoning. It is the only state in New England with a supermajority requirement.
- This causes problems when local governments want to change zoning.
- Especially in Towns, where Town Meeting must approve zoning amendments, the 2/3 voting threshold can be a barrier to new zoning that would allow for increased housing production.
Status Quo is a Barrier to Effective Planning

Supermajority voting threshold has impeded efforts by municipalities to zone for housing production in locations that serve municipal goals, including smart growth.

- **40R “smart growth” overlay districts**
  - In at least 4 municipalities, following a lengthy planning process and DHCD approval of a proposed overlay district, the by-law received majority approval but fell short of two-thirds approval.

- **Town Meeting challenges**
  - In one recent example, after a 4-year community planning process and adoption of master plan, the Planning Board and Selectmen voted unanimously to adopt new mixed-use zoning in the town center.
  - 62% of town meeting members voted in favor of the rezoning; it failed to garner the required supermajority by 19 votes (out of 449 cast).
The proposed legislation would change G.L. c. 40A and G.L. c. 40R to reduce the required vote from 2/3 “supermajority” to a simple majority for certain zoning changes that promote housing growth. This change makes Massachusetts more consistent with current practice in most states, including other New England states. Zoning changes that promote best practices that would qualify for the simple majority threshold include:

- Creating mixed-use, multi-family, starter homes and/or adopting 40R “Smart Growth” zoning in town centers and near transit
- Clustering new homes to permanently preserve open space and protect natural resources
- Reducing parking requirements and reducing dimensional requirements such as minimum lot sizes
- Allowing for transfer of development rights (TDR) zoning and natural resource protection zoning
- Allowing for increased density through a Special Permit process promoting more flexible development
- Allowing accessory dwelling units or “in-law” apartments

An Act to Promote Housing Choices (H.4290 190th)

Goal: Lower the local voting threshold to a simple majority for adoption of zoning practices that promote new housing and sustainable growth
Over 2/3 of employers claim home prices and rental costs have affected their ability to recruit qualified candidates.

“High housing costs and housing availability are a major concern of businesses looking to expand or relocate in Massachusetts.”

“The things that keep me up at night about other tech companies considering Boston are transportation and housing challenges, less so about a fight for talent.”

Business Community support for Governor Baker’s Housing Choice legislation and program, March 2018: Boston Medical Center, Manulife Financial (John Hancock), iBoss, Dell, Mass Competitive Partnership, General Dynamics, McKinsey Consulting, NAIOP, Rockland Trust Bank, South Shore Chamber, and more!

Summary: The Housing Choice Initiative

The Housing Choice Initiative has several elements that create a powerful suite of options for local governments to promote additional housing:

1. Housing Choice Designation
2. Small Town Capital Grants (less than 7,000 population)
3. Coordinated Technical Assistance
4. Legislation
5. Housing Goal: 135,000 new units by 2025
How does a City/Town qualify as a Housing Choice Community?

Community achieved Housing Choice Designation?

**Last 5 years**

1) **High Production** Greater than 5% housing growth or 500 units;
   or

2) **Production & Planning** Greater than 3% growth or 300 units and 4 out of 9 best practices
   and

Has Community Compact and no moratorium on new housing

- Preferential access or increased subsidy for Commonwealth Grant Programs
- Access to new grant program exclusively for Housing Choice Communities
- Continue to support sustainable development in order to maintain designation and compete for Housing Choice Grants
- Access technical assistance to maintain housing production
  - **Designation lasts for 2 years**

Community has not yet achieved Housing Choice Designation?

- Apply for technical assistance to increase housing production
- Use lower voting threshold in legislation to pass local land-use laws that encourage sustainable growth
- Apply for housing choice designation once permitting activity increases
Housing Choice Designation: Best Practices

Production & Planning threshold (3% or 300 units) must also have 4 of the following 9 best practices, one of which must be related to affordable housing.

Best Practices -

1. Designated local resources for housing such as established an Affordable Housing Trust, donated land, or spent substantial CPC funds for community housing [Affordable Category]
2. Selected a housing best practice as part of its Community Compact
3. Have achieved a minimum of 10% of housing stock as affordable according to the subsidized housing inventory [Affordable Category]
4. Have adopted zoning that allows mixed use or cluster development by right (or can demonstrate a pattern of approving such developments)
5. Have zoning that allows for accessory dwelling units by right (or can demonstrate a pattern of approving ADUs)

Best Practices (continued)

6. Have zoning that provides for inclusionary housing with reasonable increases in density [Affordable Category]
7. Have an approved 40R district, participate in the Housing Development Incentive Program or have adopted an Urban Center Housing Tax Increment Financing district [Affordable Category]
8. Have at least one zoning district that allows multifamily by right with capacity to add units and that allows for family housing
9. Have a certified Housing Production Plan [Affordable Category]
Rewards: Housing Choice Capital Grants

New capital grant program FY 19 – Applications open in May 2018

Exclusive access to new Housing Choice Capital Grants, estimated at least $6.7 million in the first year and increasing revenue growth thereafter.

Projects do NOT need to be directly tied to a housing project!

Examples of capital projects:

a) Acquisition costs - land, buildings and other capital assets;

b) New building construction or capital improvements to existing infrastructure;

c) Infrastructure such as roads, sidewalks and curbs, bridges, tunnels, electrical lines, water lines, and sewer lines;

d) Acquiring long-term easements over real property;

e) Vehicles, machinery, and heavy equipment, or major building fixtures;

f) Major renovations to parks and recreational fields;

g) Engineering or design work required for a capital project; and research and feasibility studies;

h) Certain computer equipment and technology.
## Rewards: Advantages in selected State Grants

</table>
Rewards: Dedicated Funding for Small Towns

• The first year Small Municipalities Housing Choice Grant will be for an estimated $1 million in capital grant monies and increasing with revenue growth thereafter.

• In addition to the dedicated funds for small communities, they may choose to seek Housing Choice designation and to compete for the Housing Choice Grant funds.

• Towns across the Commonwealth will benefit from Housing Choice funding.

• Small towns are also eligible for the MassHousing 40B Planning for Production grants.

• MassWorks will continue to set aside 10% of funds for projects in rural small towns with population of 7,000 or less (Small Town Rural Assistance Program or STRAP).
Collaborative Technical Assistance

The Housing Choice Initiative will align resources and data so that there is a clear, single point of entry for communities seeking to increase sustainable housing production

- Building on the success of the Open for Business Initiative, the Housing Choice agenda will **integrate existing resources under a new Technical Assistance initiative** so that all existing programs are working in alignment.

- DHCD’s Housing Choice Program Director will **promote planning and housing related technical assistance** across multiple agencies -- including public and quasi-public agencies

- **MassHousing committed $2 million in “Planning for Production”** grant program to assist local governments to better plan for housing
The Housing Choice Initiative will **track progress towards the Goal of 135,000 new units by 2025** and improve data systems.

- Goal is achievable because production in the last 3 years has been strong, but it needs to be sustained.
- **Represents a 26 percent increase in housing production compared to the last eight years.**
- Keeps pace with projected increases in housing demand.
- Is closely aligned with the housing production goals required for designation as a Housing Choice community.
Housing Choice Initiative: Major Milestones

December 2017
- Announce Housing Choice Initiative
- Governor filed An Act to Promote Housing Choices legislation (H. 4075)
- $2 million new MassHousing Technical Assistance “Planning for Production” grants
- Contract with regional planning agencies on new DLTA round, which includes support for the Housing Choice Initiative

January to April 2018
- Open applications for Housing Choice Community designation
- Hearing on H. 4075, at Joint Committee on Housing (voted out of committee 12-1 in support and redrafted as H. 4290)

May to June 2018
- Announce Housing Choice Communities
- Incorporate HCC into multiple grant programs and new MassDOT capital plan
- Open Housing Choice Capital Grant Program and Small Town Grant Program applications

Fall 2018
- Announce Housing Choice and Small Town Capital grant recipients
