

Municipal Engagement Initiative Community Application and Instructions

About the CHAPA Municipal Engagement Initiative

CHAPA's Municipal Engagement Initiative seeks to build support for affordable housing production in communities across the Commonwealth.

While all communities can benefit from public education and community discussions about the need for housing development and how it benefits communities, each community is unique in its character, land, zoning, and housing stock. CHAPA works to implement a community engagement strategy in every individual community that is responsive to each unique environment. CHAPA's community engagement strategy is based on the collaborative model CHAPA uses at the state level; focused on building coalitions that work together to address each community's housing challenges. Coalition building will bring together community stakeholders representing local businesses, civic groups, houses of worship, and other groups and individuals that are active in each community.

Municipal Engagement Community Criteria

In addition to meeting the required criteria outlined below, all applications should align with CHAPA's mission to encourage the production and preservation of housing that is affordable to low- and moderate-income families and individuals and to foster diverse and sustainable communities through planning and community development.

Applications will be evaluated based on the following criteria:

Required:

1. Market Conditions to support Housing Production and Affordable Housing
2. Additional Conditions needed to build support. Examples of conditions that indicate need may include, but are not limited to:
 - a. Municipal staff seeking assistance to engage community around housing production and affordable housing,
 - b. Local advocacy or community group seeking assistance to engage community,
 - c. No existing coalition,
 - d. High level of organized opposition preventing municipality from moving forward with efforts to produce housing,
 - e. Close votes on zoning and development proposals, or
 - f. Missed opportunities identified
3. Welcomed by Municipality at some level (Mayor, Town Manager, ZBA, Planning Staff, Fair Housing Commission, etc.)

Additional Considerations:

1. Trigger: New Zoning proposal, specific site changing hands, public site available for affordable housing, new leadership, new regulation or policy being explored
2. Past Effort: Consideration will be given to past efforts, barriers, challenges and potential for impact
3. Collaboration with other Technical Assistance efforts: The MEI seeks to coordinate efforts with other technical assistance providers to maximize impact

Note: Both Municipal Governments and Community Groups/Residents may apply. **If you are a Community Group, you must include a Letter of Support from the Municipal Government with your application.** If you have questions about this requirement, please contact Monica C. Keel at mkeel@chapa.org.
